

Culturally competent trauma

Treatment

WSSCSW Fall conference
with Dr. Laura Brown

Dr. Laura Brown, a clinical psychologist in Seattle, has spent her career working with survivors of childhood trauma. A recipient of many awards for her work in trauma treatment and feminist therapy, she is the author of 11 books, including *Feminist Psychotherapy*, and dozens of articles and chapters. She founded the Fremont Community Therapy Project and is a therapist, trainer, consultant and supervisor.

Dr. Brown's model of cultural competence focuses on self-awareness of the therapist's own intersecting strands of identity, cultural norms and biases and the ability to be sensitive to the nuances of human difference. This model of cultural competence is inherently integrative in that it focuses on people, not theories, and on distress, dysfunction, strength and resilience, not specific diagnoses.

OCTOBER 13, 2017

9:00 am to 4:00 pm

University Heights Center
Seattle

for LICSWs, LMFTs, LMHCs

Washington State Society for
Clinical Social Work
Identity • Integrity • Diversity

WSSCSW offers professional development, networking and collaborative community building for the clinical social worker in a variety of settings. Our mission is to provide clinical training and support, legislative advocacy on mental health and social service concerns, protection of clients' rights and economic vitality for clinical social workers.
